

# Table ronde : Flag-ship environments vs « ambient deep-sea »

Dr. Magalie ZBINDEN, BOREA/UPMC, France

Dr. Stéphane HOURDEZ, ADMM/CNRS, France

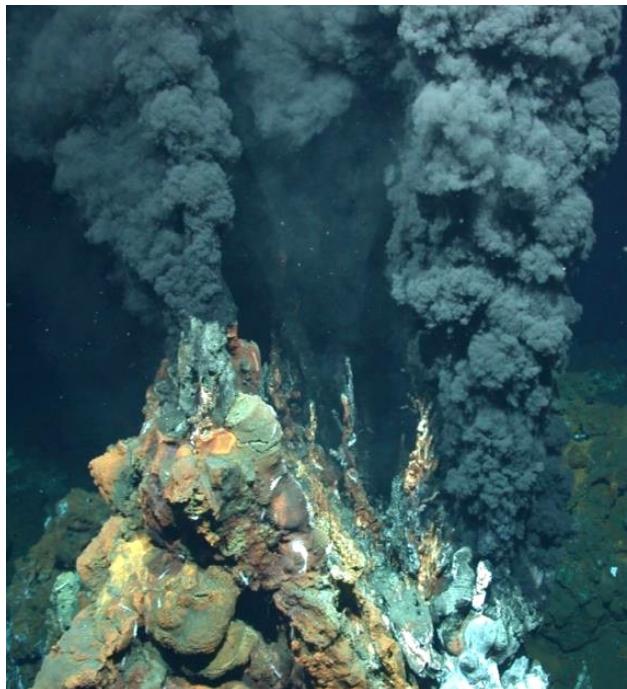

Dr. Karine OLU, LEP/IFREMER France

Sophie BARY, ISYEB-BOREA/Labex BCDIV, France

Philippe BOUCHET, ISYEB/MNHN, France

Dr Wei-Jen CHEN NTU, Taiwan

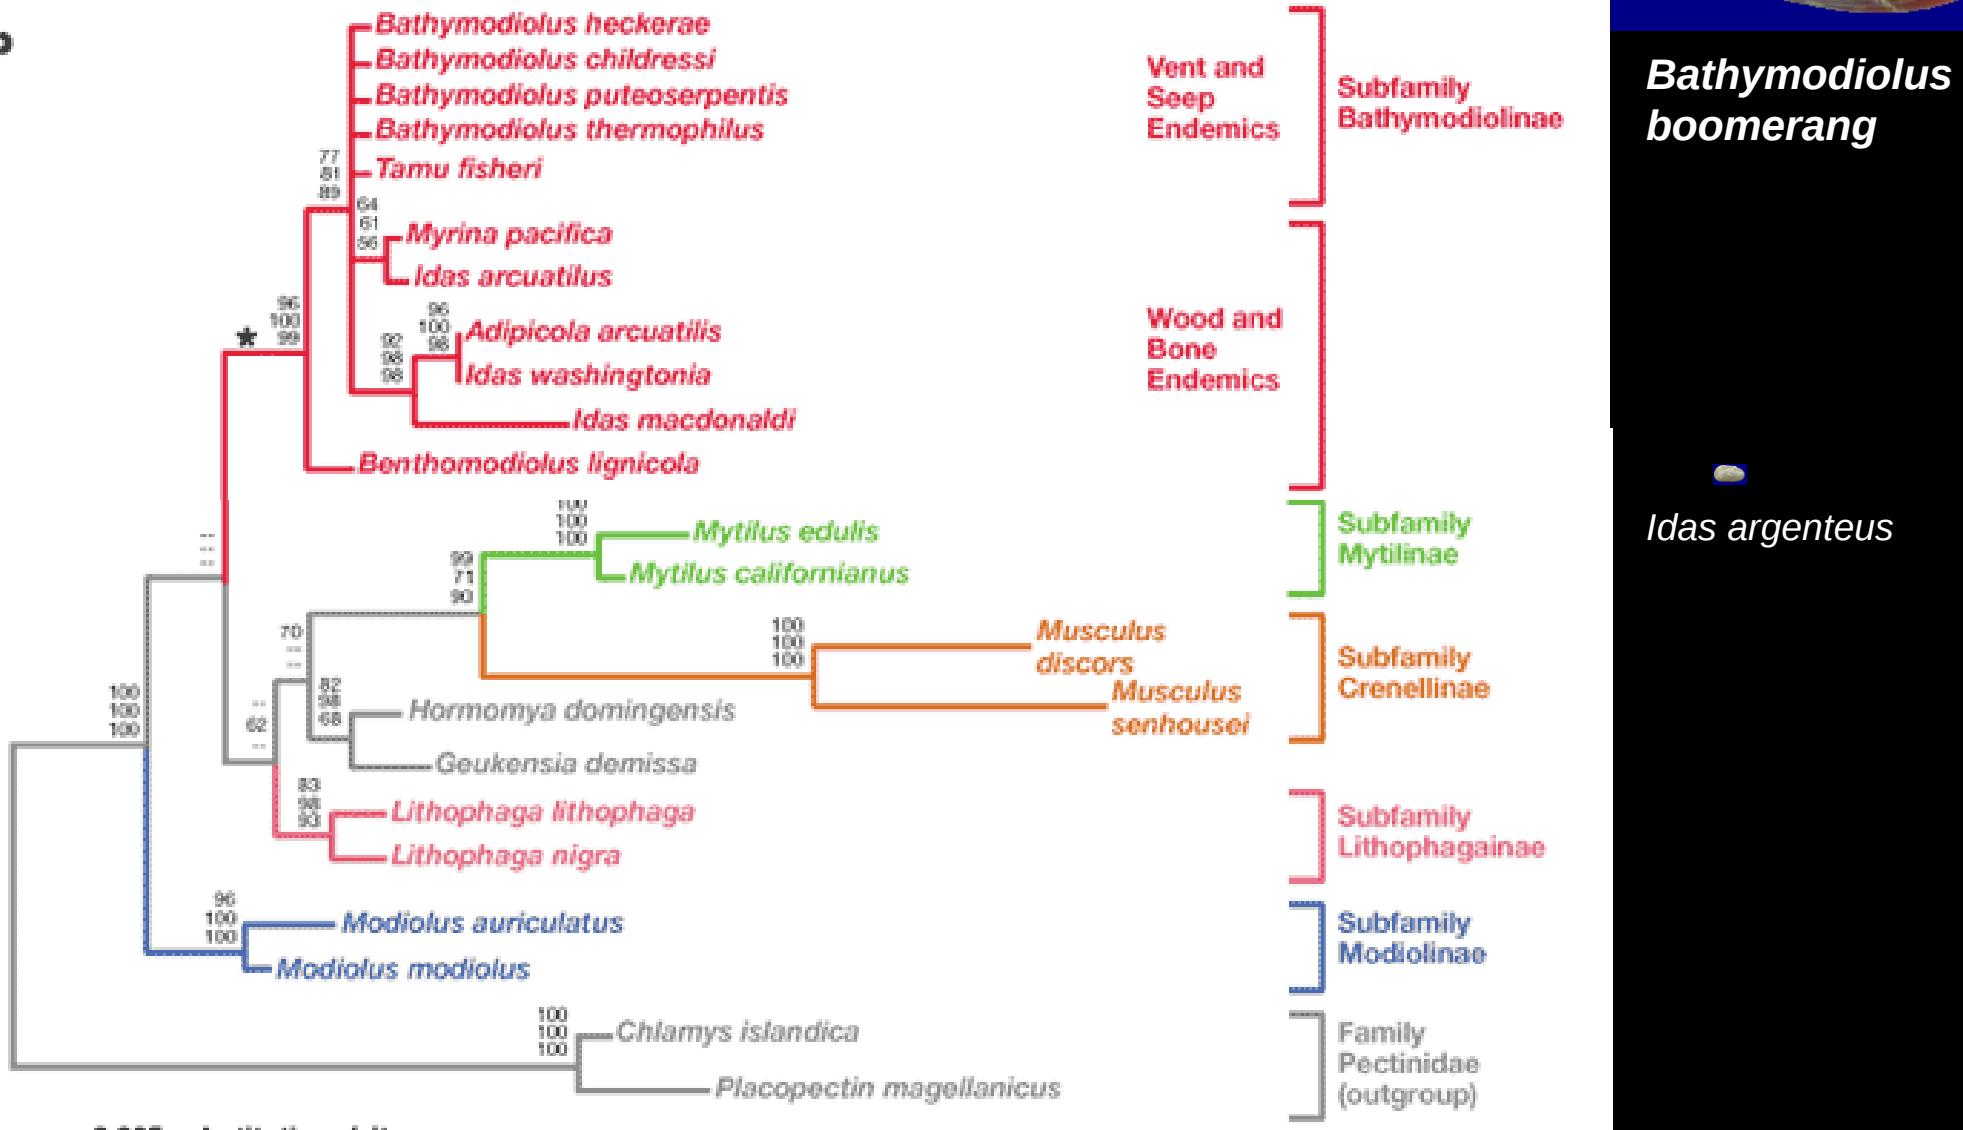

## Giant Sea Spiders, Frigid Divers, and the Oxygen Hypothesis

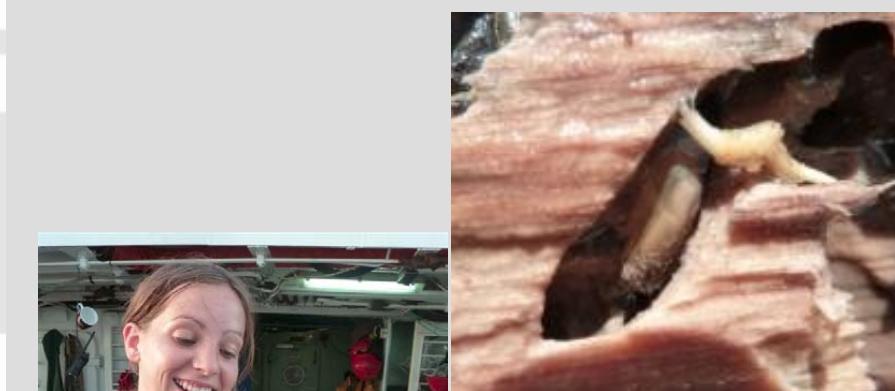

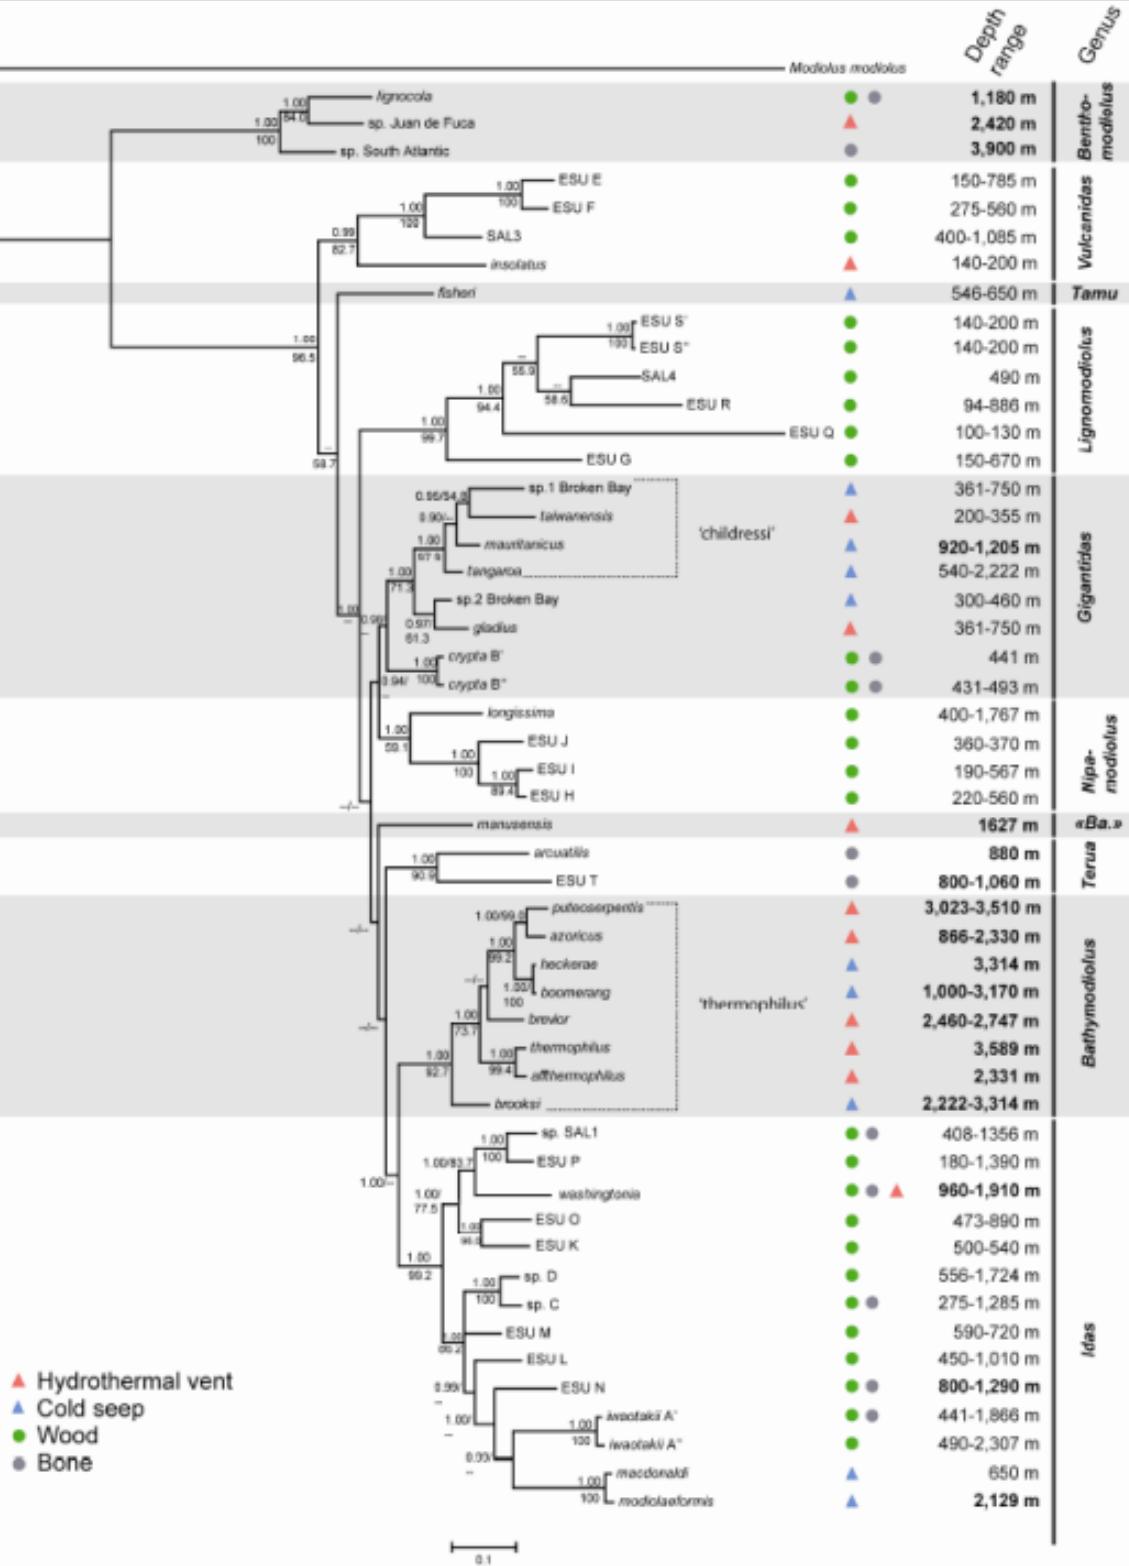

ECO / 05 JANUARY 2016

Sea spider feeding on a piece of jellyfish. The jellyfish is also being devoured by an anemone. Photo credit: Team Pycno.

# Do mussels take wooden steps to deep-sea vents?

**b**

# TROPICAL DEEP SEA BENTHOS

1- What are the main biases in the exploration of deep-sea life ?

2- What are the locks for comparative approaches to adaptation to deep-sea ?
